

YOUR SOLUTION PARTNER IN INDUSTRIAL INSULATION

ABOUT US & MISSION & VISION

About us

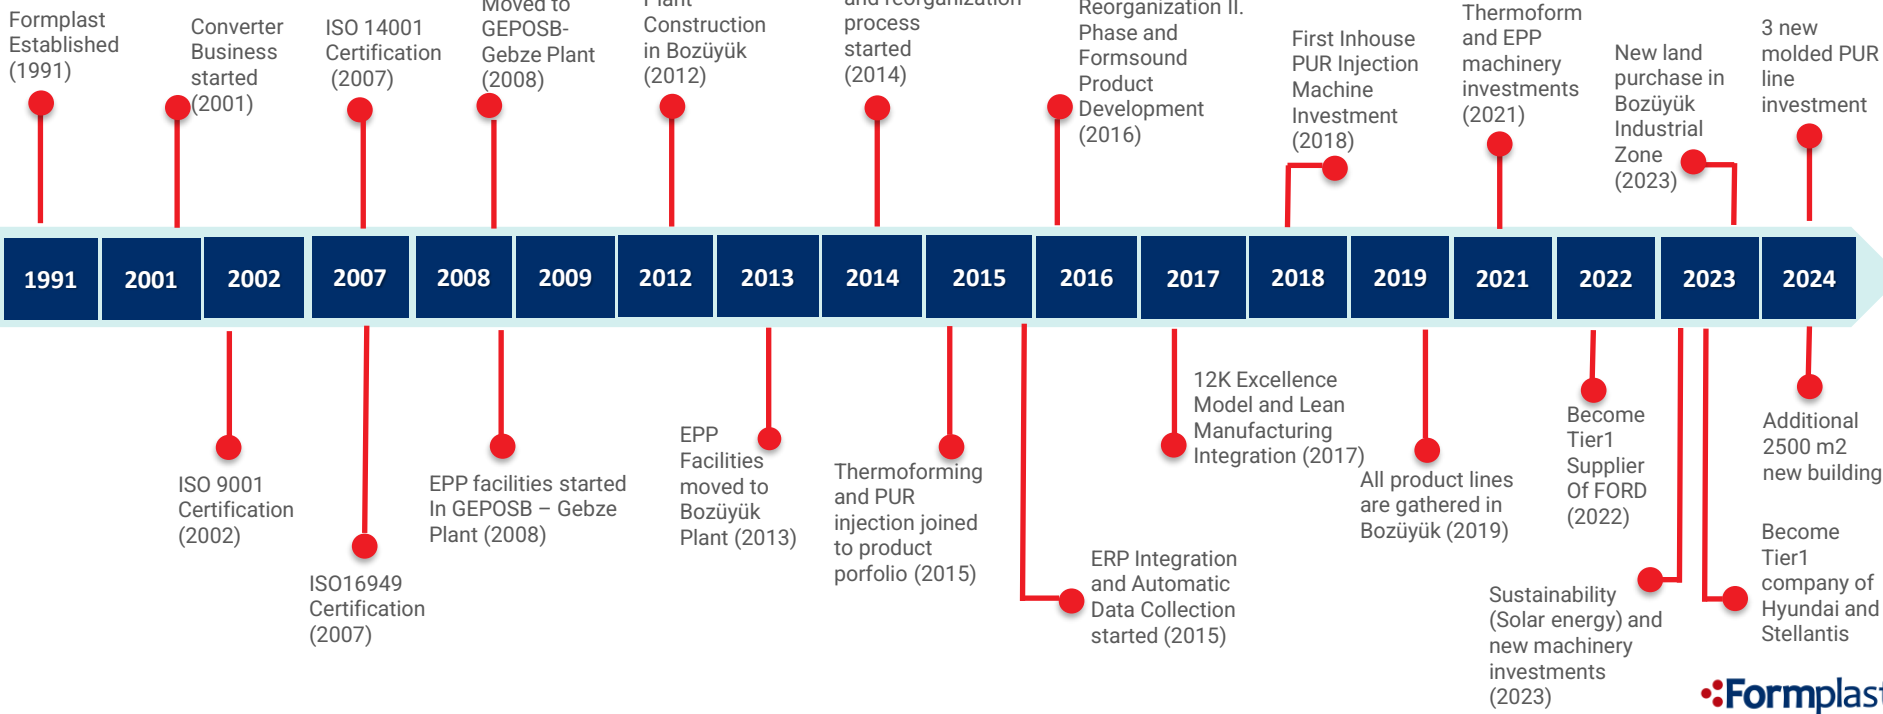

Since 1991, Formplast has been producing *EPP, PUR, Thermoform ve Converting* parts to be used not only for conventional isolation applications but also acoustic insulation, light weight and impact resistance applications mainly for automotive, white goods and heating-cooling-ventilation industries according to technical requirements of its customers.

Our Mission & Vision

To be the most preferred industrial insulation parts manufacturer in Turkey and Europe, with the advantage of producing different product groups, constantly improving its processes with a lean management approach and digital transformation, without compromising on quality and sustainability targets.

MILESTONES

FACTS & FIGURES

32 YEARS EXPERIENCE

- CONVERTING
- EPP MOULDING
- THERMOFORMING
- PUR INJECTION
- IATF16949 : 2016
- ISO 9001: 2015
- ISO 14001: 2015

DEVELOPMENT / PATENTS

- DESIGN CENTER
- PROTOTYPE CAPABILITY
- LABORATORY
- SUSTAINABILITY
- FORMSOUND
- FORMCELL
- EASY PARK 

300 EMPLOYEES

- 63 White Collar
- 237 Blue Collar
- %37 Woman

Polyurethane(PUR) foam;

- Open/Closed Cell
- Ether-Ester based foam
- Non-flammable acoustic foam
- Cheap Foam(Bondex)
- Filtration Foam
- Thermoformable acoustic foam
- Melamin foam(BASF)

EPDM ;

- Open cell EPDM
- Semi – Closed cell EPDM
- Closed cell EPDM

Polyethylene ;

- Chemical Crosslink PE
- Physical Crosslink PE
- Second Foam PE
- Extruded PE

Other Foams;

- Silicon Foam
- PVC foam
- Elastomeric Rubber Foam
- EVA foam

Natural Fiber Felts;

- Cotton felt
- Epoxy felt
- Wool felt
- Phenolic felt
- BICO felt

Mineral Wool

- Rock wool
- Glass wool

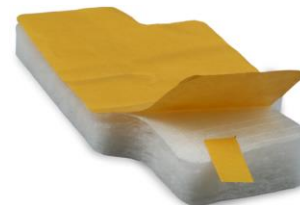

Polypropylene Felt

- Meltblown

Polyester Felt

- Water Oil Repellent PES felt
- Anti-rattle non-woven felts

Formsound®

FORMPLAST's patented product FORMSOUND® is a series of high performance light weight acoustic insulation material, composed of special polyester fibers.

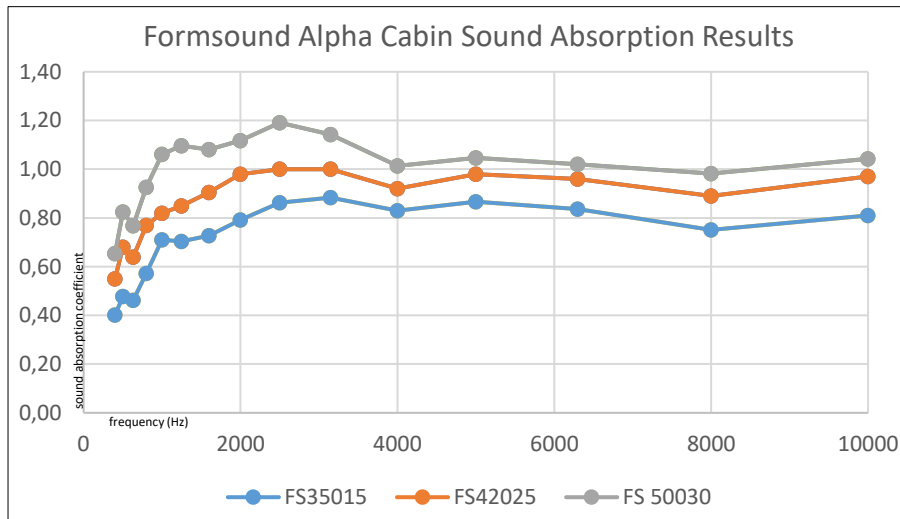

Formplast's patented product Formsound® is a series of high performance light weight acoustic insulation material, composed of special polyester fibers. Parts can be offered as sealed on all edges for external applications.

Physical Properties (Typical values)

Thickness :15 – 25 – 30mm
 Surface weight :350-420-500gr/m2(web and scrim)
 Flammability :0 mm/min as pes FMVSS 302
 Temperature
 Stability :120 °C
 Color :White
